

Agricultural Enterprise Declaration

I am acknowledging that this building project or earthmoving activity is for the intent of performing agricultural business or activities. This is an increasing issue with what is and is not agricultural use, so please read and understand thoroughly. In the event of the construction is in fact discovered not to be an agricultural use, a permit will need to be issued at that time and all subsequent fees are required.

I understand that agriculture is defined in the **Ohio revised code 303.01; 303.02 to 303.25** includes farming; ranching, algaculture meaning the farming of algae; aquaculture; apiculture; horticulture; viticulture; animal husbandry, including but not limited to, the care and raising of livestock, equine, and fur bearing animals; poultry husbandry in the production of poultry and poultry products; dairy production; production of field crops, tobacco, fruits, vegetables, nursery stock, ornamental shrubs, ornamental trees, flowers, sod, or mushroom; timber; pasturage; and combination of the foregoing; the processing, drying, storage, and marketing agricultural products when those activities are conducted in conjunction with, but secondary to, such husbandry or production.

Livestock and Horticulture Structures

Ohio Revised Code 5739.01 provides definitions for "Livestock", "Livestock structure", "Horticulture" and "Horticulture structure":

(OO) "Livestock" means farm animals commonly raised for food, food production, or other agricultural purposes, including, but not limited to, cattle, sheep, goats, swine, poultry, and captive deer. "Livestock" does not include invertebrates, amphibians, reptiles, domestic pets, animals for use in laboratories or for exhibition, or other animals not commonly raised for food or food production. (PP) "Livestock structure" means a building or structure used exclusively for the housing, raising, feeding, or sheltering of livestock, and includes feed storage or handling structures and structures for livestock waste handling. (QQ) "Horticulture" means the growing, cultivation, and production of flowers, fruits, herbs, vegetables, sod, mushrooms, and nursery stock. As used in this division, "nursery stock" has the same meaning as in section [927.51](#) of the Revised Code. (RR) "Horticulture structure" means a building or structure used exclusively for the commercial growing, raising, or overwintering of horticultural products, and includes the area used for stocking, storing, and packing horticultural products when done in conjunction with the production of those products.

This building project or earthmoving activity is for the purpose of animal husbandry and/or crop production.

This exemption has no bearing on any prior exemption by township zoning statute.

Landowner Initial and Date the correct following statement:

_____ This is an Agricultural facility/business, we file a IRS Schedule F each tax season

_____ This is NOT an Agricultural facility/business we do NOT file a IRS Schedule F each tax season and therefore are NOT exempt from the permitting process.

A SKETCH OF THE PROPOSED STRUCTURE & SITE PLAN MUST BE PROVIDED
