New Landowner, Home Buyer or Home Builder Guide for Richland County, Ohio

Questions to ask and who to contact when buying land or buying or building your home.
This guide was created in partnership with the following:

- Municipalities and Townships
- Richland County Auditor
- Richland County Building Department
- Richland County Commissioners
- Richland County Engineer
- Richland County Recorder
- Richland County Regional Planning Commission
- Richland County Wastewater
- Richland Public Health
- Richland Soil and Water Conservation District

PURPOSE OF GUIDE

To assist prospective landowners, homebuyers and homebuilders in Richland County by providing a list of procedures to follow and items to consider when evaluating a lot/building site or selecting land for development. This guide is meant to serve as a general guide which should lead you to more specific information. It is not intended to serve as a complete list of all information that should be gathered, but should, nevertheless, provide a good start. Home buying and homebuilding should still be treated as cae The Buyer Beware.

Planning to Buy or Build?

FOLLOW THESE STEPS TO SUCCESS

1. Weigh the advantages and disadvantages of your potential site and how they will affect your quality of life.

2. Contact Richland Soil and Water Conservation District for a custom soils and drainage features map and related information 419.747-8686

3. Contact Richland Public Health about water supply and septic issues. 419.774.4500

4. Contact Richland County Wastewater Department, 419.774.4002 or 419-774-5519 and ask for Director Amanda Miller, about sanitary sewer issues.

5. Contact the Richland County Regional Planning Commission, 419.774.5684, or the appropriate municipal planning department, to discuss subdivision and development regulations related to your plans.

6. Contact the appropriate township or municipal zoning inspector to be sure you are aware of any zoning and/or regulations that exist.

7. Contact the Richland Soil and Water Conservation District for the Storm Water Permit.

8. Contact the Richland County or Mansfield City Building Department for building, electrical or mechanical permits

9. Contact the Richland County Health/Plumbing Department for information on Plumbing Permits.

Stormwater in Richland County

The Richland County Commissioners adopted the Stormwater Management and Sediment Control Regulations for Richland County. The purpose of these regulations is to reduce stormwater and erosion impacts from earthmoving and/or construction activities. **Anyone within Richland County limits (not inside city/village limits, except Lexington Village) with a project that will entail earth disturbing or construction activity, must apply for a Stormwater Permit.** The permit process requires the applicant to submit a site plan detailing how erosion and stormwater will be handled during and after the project. The goal is to keep sediment from leaving the site and to handle stormwater in a way to promote water infiltration into the soil and not create a drainage nuisance to neighboring properties. Larger commercial construction projects may be required to submit an engineered plan that will retain stormwater onsite and release it at a controlled rate.

Checklist permits you may need

- 1 Permit Septic or Richland County Waste Water
  
  [https://richlandhealth.org/](https://richlandhealth.org/)
  
  [https://www.richlandcountyoh.us/index.php/forms](https://www.richlandcountyoh.us/index.php/forms)

- 1 Permit Township or City Zoning (if applicable)

- 1 Storm Water Permit Form
  
  [https://richlandswcd.net/services/do-i-need-a-permit](https://richlandswcd.net/services/do-i-need-a-permit)

- 1 Plumbing Permit
  
  [https://richlandhealth.org/departments/environmental-health/](https://richlandhealth.org/departments/environmental-health/)

- 1 Building Permit (This would include Building, Electrical and Mechanical permits for both interior and exterior work.)
  
  Richland County: [https://www.richlandcountyoh.us/index.php/departments/public-works/building-department](https://www.richlandcountyoh.us/index.php/departments/public-works/building-department)

  City of Mansfield Building Department:
**Septic Permit:** You will need to go to the Richland County Health Department to receive this form or their website https://richlandhealth.org/home-health/sewage-treatment-systems-residential for forms and questions. You may also call the Richland County Health Department at 419-774-4500.

**Township Zoning Permit** (where applicable): Some townships are zoned and some are not. Please check with your townships Zoning Inspector or Village Administrator to verify if you will need a zoning permit for your project. You will also need to see if there are any Zoning Codes that will need to be incorporated into your site plan before applying for any other permits. Pages 22 - 23 have all of the Townships, Villages and Cities listed and the applicable individual to reach out to for zoning questions. They will have their individual Zoning permit forms available.

**Richland Soil and Water Conservation District (RSWCD):** These forms are all available at our office location or you may go to our website richlandswcd.net There you will find under the “Services” tab “Do I Need a Permit”. If you click on the “Start the Questionnaire” that will lead you through the process to find out if a permit from the RSWCD is needed. If a permit is needed it will also indicate the forms you will need to bring in with you. You will still need to come to the office even if a permit is not required to fill out the permit form and possibly receive an exemption for the proposed work to be completed. If you are a contractor and a permit is required please have the property owner sign the permit before you come to the office. The phone number is 419-747-8686 if you have any questions. There will be inspections occurring at different intervals before, during and after construction. Please also bring a sketch and building/site plans for the proposed construction with you.

**Building Codes and Permits:** There may need to be “building”, “electrical” and “mechanical” permits issued as well as inspections during that process. Please reach out to the Richland County Building Department 419-774-5517 or their website: https://www.richlandcountyoh.us/index.php/departments/public-works/building-department. All of their forms and information is available on their website. They will also be happy to answer any questions you may have over the phone or at their office.

**Plumbing Permit:** Plumbing Permits are obtained from the Richland Public Health Department of Environmental Health.
AGENCY DESCRIPTIONS

Richland County Building Department (RCBD)
The Richland County Building Department enforces code requirements and regulates the construction of buildings and structures within the Department’s jurisdiction. We review and approve all plans and issue all permits required by the applicable, current codes for the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, and location to all commercial and residential buildings and structures. Our primary mission is to insure the health, safety and welfare of the residents of Richland County and the areas under our jurisdiction.

Richland County Engineer (CE)
The Richland County Engineer is responsible for designing, building and maintaining the county highway system. This includes 355 miles of county roads and 359 county and township bridges. In addition to these duties, the County Engineer also oversees subdivision development and regulations, tax mapping, ditch petitions and cleaning, waterway drainage, annexation and vacation review, and serves as an advising engineer to the township trustees.

Richland Public Health (H)
The Environmental Health Division works with registered plumbers and homeowners to ensure all plumbing installations are in compliance with the Ohio Plumbing Code. Provides information and assistance regarding sewage treatment systems and private drinking water systems.

Richland County Regional Planning Commission (RCRPC)
The Richland County Regional Planning Commission is responsible for the development and administration of the Richland County Subdivision Regulations. The staff also provides assistance, advice and recommendations to municipalities and townships concerning their zoning and subdivision matters. The staff along with the Zoning, Subdivision and Land Use Committee reviews subdivision plans to determine compliance with Regulations and other adopted plans, coordinate cross-agency review; and prepares maps and staff reports for Planning Commission meetings.

Richland County Wastewater Permits: There will need to be a repair, abandonment or connection permits issued as well as inspections during that process. Please reach out to Richland County Wastewater Department 419-774-4002. All of their forms and information are available on their website. If in doubt don’t hesitate to contact them. They are happy to help.
AGENCY DESCRIPTIONS (Contd.)

Richland Soil & Water Conservation District (RSWCD)
The SWCD is the local source for natural resources conservation. It is your source for soil maps, information on soil capabilities and limitations, pond site evaluations, erosion control measures, and drainage maintenance activities. RSWCD administers the county stormwater permit program. Anyone within Richland County limits (not inside city/village limits, except Lexington Village) with a project that will entail earth disturbing or construction activity, must apply for a Stormwater Permit.

Glossary

Building Envelope - the physical separator between the conditioned and unconditioned environment of a building including the resistance to air, water, heat, light, and noise transfer. The building envelope is all of the elements of the outer shell that maintain a dry, heated, or cooled indoor environment and facilitate its climate control.

Building Permits - a type of authorization that must be granted by a government or other regulatory body before the construction of a new or existing building can legally occur.

Building Regulations - statutory instruments that seek to ensure that the policies set out in the relevant legislation are carried out.

Covenants - agree by lease, deed, or other legal contract.

Development Plan - set of documents that set out the local authority's policies and proposals for the development and use of land in their area.

DESC Permit - Drainage, Erosion and Sediment Control permit.

Drainage Protection Review - House Bill 25 became law in the fall of 2003 giving counties with building regulations the authority to require drainage site reviews on large lot (5 acres or more) building sites.

Drainage Maintenance Assessment - drainage factors the special benefit received by each parcel is dependent on the services required to capture and convey the runoff from the parcel.

Drainage Petition - include activities such as cleaning out, relocating, widening, deepening, straightening, tiling, extending, or relocating along a highway.

Dry Hydrant - non-pressurized pipe system permanently installed in existing lakes, ponds and streams that provides a suction supply of water to a fire department tank truck.

Footer Drains - The drainage system around the exterior of a footing or foundation wall.

Outlet - a pipe or hole through which water or gas may escape.

Permeability - the state or quality of a material or membrane that causes it to allow liquids or gases to pass through it.

Phase II - Rule establishes an MS4 stormwater management program that is intended to improve the Nation's waterways by reducing the quantity of pollutants that stormwater picks up and carries into storm sewer systems during storm events.
Glossary Continued

Recorded Subdivision - A subdivision plat approved by a local planning commission, once recorded in a registry of deeds, is generally deemed to have created the parcels of land identified on the plat itself.

Right-of-Way - the right to build and operate a railroad line, road, or utility on land belonging to another.

Shrink and Swell - result of changes in the moisture content of clay-rich soils. This is reflected in a change in volume of the ground through shrinking or swelling. Swelling pressures can cause heaving, or lifting, of structures whilst shrinkage can cause differential settlement.

Storm Water Permit - a permit issued by the Richland Soil and Water District to allow the proposed earth disturbing activity.

Well Drilling Permit - Authorization, usually granted by a governmental conservation agency, to drill a well.

Zoning - the action or process of assigning parts of a town or piece of land to categories subject to different restrictions on use and development.

Zoning Permit - a document obtained from a local government entity that authorizes the building or alteration of a structure within the zoning ordinances specified for the area.
