Item	Description	Picture	Quantity	Unit Price	Amount
Woodland Edge	Have a shady spot in your yard and don't know what to do with it? The Woodland Edge packet is perfect for that area where you don't think anything will grow. All of the species in this mix are native to Ohio and are commonly found on woodland edges and in open meadows. Lower light levels are welcome. Performs well in areas that are not too wet or dry.			\$16.00 plus tax	
Rain Garden	This Rain Garden native seed mix is composed of native grasses and wildflowers that can tolerate wet events and dry areas based on season and the amount of rainfall. Also filters stormwater runoff. Beneficial and beautiful, the Rain Garden creates diverse color and is attractive to butterflies and hummingbirds.			\$16.00 plus tax	
Butterfly Hummingbird	It doesn't get better than this mix for attracting butterflies and hummingbirds. The 3 different species of Milkweed contained in this mix are host plants for the migrating Monarch butterfly. Watch in amazement as they complete their life cycle on these plants and use them as a source of nectar. Hummingbirds will love the bright colors and tubular flowers. The grasses contained in this packet add structure and diversity. Perfect to get kids involved!			\$16.00 plus tax

<p>Native Short Grass and Wildflower</p>	<p>Grasses and wildflowers work together in harmony to create a pocket prairie to be proud of. This popular mix will provide first year color and then take about 3 years to fully mature. Create a backyard nature preserve that you will enjoy for years to come.</p>			<p>\$16.00 plus tax</p>	
<p>Pollinator Partnership</p>	<p>Help pollinators get the job done with this native seed mix packet designed with our friends at Pollinator Partnership. This seed mix has been designed for situations where first year color is desired and contains only wildflowers and no grass component. Year one will be mainly annuals but provide pollinators a much needed place to land. Year two will see some annuals, biennials, and perennials, and by year three a beautiful mix of perennials will bloom all season and provide a healthy and sustainable area for pollinators. This mix can be used alone, over existing grass plantings or combined with any of our grass only mixes.</p>			<p>\$16.00 plus tax</p>	
<p>Septic Field</p>	<p>The native seed in this mix will become plants that help, in some cases, increase transpiration in your septic field. This blend of native grasses and native wildflowers prefers drier soils, with their root systems drawing moisture to help better utilize nutrients.</p>			<p>\$16.00 plus tax</p>	

Total _____

Each seed packet contains 1 PLS (1 Pure Live Seed) oz. of seed which is enough to cover 250 square feet.

Detailed instructions on planting your seed packet are included with each purchase.

The cost for the seed packets is \$16 + tax. Please add a 3% convenience fee if you choose to purchase with a credit card. All sales are final.
