The program is a grassland management school designed for grazing livestock producers and resource managers.

The goals of the Grazing School are to:

- 1) educate producers and resource managers in the art and science of grazing management
- 2) transfer new technology in grassland management to producers and resource managers
- 3) improve the producers' ability to better manage their grassland and related natural resources.

Participants will be able to use the information they receive to help ensure their grazing operations are environmentally responsible as well as economically viable.

Pastures for Profit Grazing School is brought to you by the Ohio Forage & Grassland Council, the Ohio Department of Agriculture, The Ohio State University College of Food, Agricultural and Environmental Sciences, Richland Soil and Water Conservation District, and USDA-Natural Resources Conservation Service. USDA in an equal opportunity provider, employer, and lender
