Please Join Us for Precipitation Monitor Training

Thursday, October 20

10:00 a.m.

**Richland Soil and Water Conservation District Office
1495 W. Longview Avenue, Suite 205B
Mansfield, OH 44906**

Be part of a dedicated team of volunteers who keep track of when it rains and snows. As a Precipitation Monitor, you will measure and record rain and snowfall at your home or business. Data is used to gauge long-term trends in watershed health and land use practices.

We'll train you and provide the equipment; you need access to the internet. Your data is shared [Water Data Map](#) on the website.

This is a great citizen-science opportunity that doesn't require a lot of time and provides valuable data.

Contact [Theresa](#) for more information or to register by September 19.

For information on varied volunteer opportunities within our office, including identifying historical photos, engaging young people in the District, becoming a Precipitation Monitor, Lake Monitor, Stream Monitor, Office Assistant or an Earth Team volunteer with the Natural Resources Conservation Service, please [click here](#).

Programs and assistance of the Richland Soil and Water Conservation District are available without regard to race, color, religion, sex, gender identity, age, national origin, ancestry, disability or veteran status.
